

Tri-Pole Handrail Platform

MLEP Part Number: D2514 (J-Lock)/D2515 (Ball-Lock)

Portable Storage Work Platform

Designed for temporary attachment to the handrail, the Master-Lee Engineered Products Tri-Pole Handrail Platform provides the operator with a functional fixture to conveniently store poles when not in use. Weighting less than 25 lbs., the aluminum fixture can be easily installed.

The Handrail Platform is capable of staging three assembled long handled tools. Tools are secured using a quick-connect ball lock and lanyard to keep positive control. By hanging the assembled tool, the user will save time not disassembling and reassembling.

When it is time to mobilize or pack out, simply lift and move to the next location or pack up for the next project.

Technical Specifications

- *Weights less than 25 lbs.*
- *Made of Hard Anodized Aluminum*
- *Holds up to 3 poles at a time*
- *No additional hardware needed*
